We both rise and fall from it, just as flowers fall at God's feet, mothers' eyes fill with tears, soldiers stumble after being shot by the enemy, etc. We stumble, but never from someone else's perspective, especially our own, and if this occurs, nobody—not even God—can assist him get back up.” Acharya Shivendra Nagar had also given an interview in Denmark with Indiavision and in the interview he said, “Where there is knowledge and action, there is money” it indicates that the more you study a subject and acquire sufficient understanding of it, the more it will benefit you in the future, such as in a career or other situation.
